## About Myself >>>>

I am an experienced software engineer specializing in programming with modern languages such as Ruby, Javascript, and Python. My career spans many years across gig economy markets, education tech, web hosting, and telecommunication. I have developed a broad spectrum of technical knowledge with the keen creative problem-solving skills that make for the best engineers. I take pride in my work, and I value quality in my results. I am seeking placement with a team of other talented professionals where I can exercise the full strength of my abilities.

## Employment History >>>>

Wonolo — San Francisco, CA *	2022 - 2023
<a href="https://www.wonolo.com">https://www.wonolo.com</a>	
Wonolo (Work Now Locally) is a gig work marketplace that allows business owners to hire workers for temporary roles
